Education

Illinois Institute of Technology August 2018 - May 2024
Bachelor of Science, Artificial Intelligence,
Minor In Applied Mathematics
Masters of Science, Business Analytics May 2024 – December 2025
- International Student merit-based Scholarship

Relevant Coursework: Marketing Strategy, Predictive Analytics, Data Visualization, Business Intelligence, Strategic Decision Modeling

RELEVANT EXPERIENCE:

Marketing Strategy & Market Intelligence Project Aug 2025 – Dec 2025
Illinois Institute of Technology
• Led end-to-end market research to evaluate segment growth potential, customer pain points, and competitive positioning using structured analytics and industry datasets
• Designed a go-to-market strategy framework including pricing considerations, distribution channels, and customer segmentation to support strategic recommendations
• Synthesized data insights into executive-level dashboards and visual narratives using Tableau and Power BI to support decision-making
• Presented actionable recommendations to stakeholders, aligning market opportunity analysis with business expansion strategies

Customer & Behavioral Analytics Capstone Jan 2025 – May 2025
Illinois Institute of Technology
• Analyzed customer usage patterns and behavioural trends using SQL and Python to identify retention drivers and engagement opportunities
• Built predictive models to evaluate conversion likelihood and customer lifetime value across key segments • Developed visual analytics dashboards translating raw data into actionable insights for non-technical stakeholders
• Recommended data-backed marketing interventions to improve targeting, segmentation, and customer acquisition strategies

Business Intelligence & Data Visualization Project Aug 2024 – Dec 2024
• Transformed complex operational datasets into interactive dashboards enabling leadership to monitor performance trends and KPIs • Identified performance gaps and opportunities through trend analysis and visual storytelling
• Delivered executive-ready insights that informed operational improvements and decision prioritization

WORK EXPERIENCE

Data Analyst Jun 2022 – August 2022
Global Shala
• Designed analytical workflows to evaluate program performance, engagement trends, and operational effectiveness across initiatives
• Built dashboards and reporting tools to translate program data into strategic insights for leadership decision-making
• Identified improvement opportunities through data modeling and analysis, supporting operational optimization
• Collaborated cross-functionally with academic and program teams to align analytics outputs with organizational goals

Project & Operations Analytics Contributor
• Supported evaluation of process efficiency and performance metrics through structured data analysis
• Built reporting frameworks to improve visibility into operational outcomes and program impact • Delivered insights supporting strategic planning and resource prioritization initiatives

TECHNICAL & ANALYTICAL PROJECTS

SQL Database & Business Data Modeling Project
• Designed relational database systems and structured data pipelines to support analytical reporting and business insights
• Executed complex joins, queries, and data transformations to extract meaningful patterns from large datasets
• Enabled structured analysis for decision-making through organized data architecture

Marketing Analytics & Competitive Intelligence Project
• Evaluated competitor positioning, pricing strategies, and customer demand indicators across target segments
• Built data-driven frameworks to support market entry and positioning recommendations
• Translated analysis into executive-ready insights for strategy discussions

SKILLS
Analytics & Strategy: Market Research, Competitive Analysis, Go-To-Market Strategy, Customer Segmentation, Business Modeling Data Tools: SQL, Python, Tableau, Power BI, Excel

Visualization: Dashboard Development, Executive Reporting, Data Storytelling Business: Strategic Planning, Cross-Functional Collaboration, Stakeholder Communication

LEADERSHIP & INITIATIVES
Illinois Tech Robotics Team
• Contributed to project strategy and execution leading to first-place finish in VEX Robotics competition
• Collaborated across technical and operational teams to deliver performance improvements and competition readiness

Professional Development & Independent Learning
• Self-developed expertise in Tableau and Power BI to translate raw data into strategic business insights
• Built independent analytics projects to strengthen market evaluation and decision-support capabilities
