Rudra More

Chicago, IL 60608 · (312) 6845935 · rmore1@hawk.illinoistech.edu ·https://github.com/Rudramore

**Education**

Illinois Institute of Technology August 2018 - May 2024
Bachelor of Science, Artificial Intelligence,
Minor In Applied Mathematics
Masters of Science, Business Analytics May 2024 – December 2025
International Student merit-based Scholarship

**Course Projects:**

**Business Decision Modeling in Excel**

- **Developed financial decision-support models to evaluate investment and marketing scenarios using break-even analysis.**
- **Applied Solver, Data Tables, and sensitivity analysis to simulate outcomes and assess risk under varying assumptions.**
- **Synthesized model outputs into stakeholder-ready insights, presented in a structured business strategy simulation to support decision-making.**

**COVID-19 Vaccination Sentiment Analysis**

- **Led development of a sentiment analysis dashboard analyzing 1M+ social media records to assess public opinion on COVID-19 vaccination.**
- **Implemented BERT-based sentiment classification and translated model outputs into interpretable trend metrics and visual reports.**
- **Delivered stakeholder-friendly dashboards and summaries to support communication strategy discussions in meetings and academic panels.**

**Search Engine Development**

- **Designed an NLP-based information retrieval system using Python and Scikit-Learn to support indexing, ranking, and relevance scoring.**
- **Improved system efficiency by reducing query response time by 25%, enhancing usability and user experience.**
- **Integrated business logic with user-focused design, including query expansion and result optimization.**
- **Documented system logic, workflows, and functionality to support reproducibility and future development.**

**ZebrA Infiltrator: Cybersecurity Startup Plan**

- **Conducted market research and competitor analysis for a simulated AI-based cybersecurity startup.**
- **Developed customer segmentation, pricing strategy, and go-to-market plan based on competitive benchmarking.**
- **Created executive-level presentation decks, benchmarking strategy against industry leaders such as CrowdStrike to support strategic positioning decisions.**

**Rideshare Application Development**

- **Built a rideshare backend with emphasis on data modeling, operational workflows, and location-based analytics.**
- **Designed relational database schemas, executed SQL queries, and maintained structured documentation for deployment and user management.**
- **Integrated external data sources (Google Maps API) to support distance calculation and operational tracking.**
- **Followed agile planning and iterative testing cycles, using Git for version control to deliver a deployment-ready prototype.**

**Strategic Roadmap for USPS Drone Delivery**

- **Developed a composite strategic roadmap evaluating the integration of AI-driven drone technology into USPS delivery operations.**
- **Conducted SWOT analysis to assess feasibility, risks, and long-term operational impact of autonomous delivery solutions.**
- **Synthesized operational, ethical, and workforce considerations into structured strategic recommendations to support transformation planning.**

**Achievements:**

- Built a web app with a team in the first crypto-based Chicago Hackathon to help immigrants through donations and took first place. February 2024

**Personal Project:**

- Joined SAE as part of the software development team to help build key components of the dashboard for the electric car which was influential for the Formula SAE competition. August 2020
- Played a key role in the Illinois Tech Robotics team's first-place win at the VEX Robotics competition by focusing on building the robot's structure. My contributions helped ensure the robot was durable and functional, emphasizing the importance of teamwork and strategic execution in competitive robotics. October 2023

**Skills:** SQL (Postgres, Oracle), Python, Java, Tableau, Excel, Figma (Basic UI Mockups), Jira, Agile Methodologies, Business Process Documentation, Workflow Diagrams, Use Case Creation, Technical Communication

**Experience**

Global Shala, Chicago, United States of America June 2022
IT department: Data Analyst intern

- Performed real-time data analysis and created interactive dashboards using Tableau and Excel to inform decision-making.
- Developed written and visual documentation to support business reporting processes and guide non-technical team members.
- Collaborated cross-functionally to validate requirements, gather stakeholder input, and iterate data-driven business insights.
